SUFFRAGISTS INVADE CAPITOL

Presented to Congress 400,000 Individual Demands for Votes for Women.

PETITIONS TIED WITH RIBBON

Senator Borah the Favorite While Senator Root "Our Fiercest Enemy."

Washington, April 18.-With banners afloat, finery aflutter, and occupying a procession of taxicabs a mile long, the suffragists, inconvention here, moved on Capitol hill today and presented to Congress 400,000 individual demands for votes for women. The mammoth national petition was divided into little ones, each tied with a bit of yellow ribbon and grouped into little bundles of convenient size for a suffragette to car-

ry under her arm. Senators and representatives from every state received some part of that petition. Representative Wiley of New Jersey announced he would refuse to present the petition of the New Jersey delegation because of the hissing President Taft at the suffrage conven tion. So Mary D. Hussey just marched up to Mr. Wiley and thrust the pe-tition upon him with the invitation to do as he liked with it.

SCHLEY WILL CO-OPERATE. Admiral Schley passed by during the The suffragettes hopped out of a taxi-

cab and pinned a "Votes for women button on the admiral. "Thank you, ladies," he said. "I will co-operate."

Dr. Anna Shaw, who had been elect-d president of the National American Suffrage association a few minutes be-fore, rode in the first automobile. About 75 others followed in single file down Pennsylvania avenue and on to the

It had been expected the suffragettes would advance on the senate side, but they went first to the house side. Many of the delegations had appoint-ments with their representatives, but there was a sharp tilt on the rules in progress in the house between Speaker Cannon and Representative Henery of Texas and they had to wait.

Miss Fola La Foliette daughter of the Wisconsin senator hustled up to the senate side to present Wisconsin's pe-tition to her father but found the senate in session and according to the order of business ,the petition could not be received until later. Some other suffragists construed this delay as indicating opposition and made quite

ing assurance that the petition would be taken under the order of "new busi-ness" later.

BORAH GREAT CHAMPION. Senator Borah was easily the favorite in the senate chamber. He was pre-sented with pelitions from the District of Columbia, Idaho, New York, Kansas

"I will let you in," beamed the door-keeper, "but I don't think there is room for your friends."

"You're very brassy, aren't you?" retorted Mrs. Deming, sharply. "If there's no room for my friends, there's none for me."

Mrs. Deming and her party were admitted to another of the galleries.

The crowded senate galleries applauded when Senator LaFollette presented his armful of petitions and said:

"I hope the time will come when this great body of intelligent people
